Item 2 - Description of Community Activities

For the community activities mentioned above, provide any additional details such as the role of the DSU, SILC, CIL, and/or consumers, names of any partner organizations and further descriptions of the specific activities, services and benefits.

Throughout the year SILC members, the DSU and CILs collaborated in numerous activities to increase knowledge of disability awareness in communities and to work toward full inclusion in everyday life of persons with disabilities throughout the state of Montana. The CILs developed training on the history of culture of disability for use in schools and other community venues with the input of SILC members. They continued training consumers through Living Well with a Disability and Working Well with a Disability classes. The SILC and CILs worked with local, county, and state governments to develop codes and ordinances for future residential, commercial, and infrastructure construction. This included such things as access to buildings, visitability of homes, sidewalk and street construction, etc. Training was offered in order to "Bring Youth Onboard." This effort will aid SILC and CILs to assist youth in transitioning from secondary schooling to post secondary life, whether work or continuing education. Additionally The Montana Youth Leadership Forum and Montana Youth in Transition Conference provided opportunities for youth and those who serve youth to come together and discuss ways to improve transitions and to get youth involved in disability issues. This partially addresses the new

emphasis on 5th core (transition) activities mandated by WIOA. Work continues toward integrated employment and away from sheltered workshops. Participation continues in establishing an Olmsted Commission in Montana. As the Money Follows the Person program became established in Montana with the hiring of staff over the summer, efforts were increased to assist persons with disabilities to transition from institutionalized work and living conditions to more independent lifestyles. This included ensuring the continued application of housing bridge funds and Medicaid waivers. The SILC and CILs network locally, statewide and nationally through membership in such IL and disability organizations such as NCIL, APRIL, CANAR, the State VR Council, Joining Community Forces (supporting veterans, servicemembers and their families) and local transportation advisory councils. At the time of this writing The SILC and CILs are preparing for the biannual Montana State Legislative session. There are several bills pertaining to disability transportation and IL issues that members have had some input in formulation and education of legislators. The SILC and CILs have several committees and task forces which were active throughout the year. The Committees are Sheltered Employment, SPIL Evaluation, Nominations, and Education. The Task Forces consist of Self Determination, Transportation, Community Living, Public Relations, Youth and Employment, Native American, and Legislative Advocacy. These committees and task forces work with other organizations and agencies to further promote IL options for persons with disabilities.

Section B - Working Relationships Among Various Entities

Describe DSU and SILC activities to maximize the cooperation, coordination, and working relationships among the independent living program, the SILC, and CILs; and the DSU, other state agencies represented on the SILC, other councils that address the needs of specific disability populations and issues, and other public and private entities. Describe the expected or actual outcomes of these activities.

During 2014 the SILC and CILs worked together to achieve the goals and objectives of the SPIL developed in 2013. In doing so strong working relationships were developed not only between SILC members and CIL staff, but with other state and local agencies, groups, private and commercial entities as well as national organizations. Regionally collaboration takes place with other councils in Region 8. Nationally members are active in NCIL, APRIL, CANAR and other organizations. The SILC works closely with other divisions within the Montana DPHHS to further IL cooperation. The SILC provided input on rules development for Community First Choice Option (CFCO) by DPHHS. It participated in meetings to continue the development of the Money Follows the Person (MFP) program. The SILC works with tribal agencies on Montana's seven Indian Reservations to work on IL issues unique to Native Americans. The SILC works with schools throughout the state to help students in transition. It collaborates with the CILs to promote employment opportunities and training for persons with disabilities. Together the SILC and CILs continue to promote better access to transportation, housing, and community activities. In all of this they are involved in furthering the advocacy, education and training of students, community members, legislators and policy makers, and future consumers on the needs, rights, and issues of persons with disabilities.

Strategies and methods are developed to address areas where the objectives and goals not being effectively met and areas of success are reviewed to make sure they are maintained. During 2015, due to the enactment of the Workforce Innovation and Opportunity Act (WIOA) the SILC and SPIL Evaluation Committee will be assessing the SPIL to determine whether amendments need to be made to the SPIL or whether any changes can be delayed until the new SPIL is developed in 2016.

During November 2014 a consumer satisfaction survey was conducted, the results of which are presented in Subpart I, Section E of this report.

Option Areas and/or Comments

Training is offered to SILC members through webinars, national, state, and local conferences and workshops. Additionally members participated in online and inperson training offered by organizations such as APRIL, ILRU, NCIL, etc. The program manager regularly sends SILC members announcements for training opportunities and has training information posted to the SILC page of the Disability Employment and Transitions Division website.

Subpart VI - SPIL Comparison And Updates

Section A - Comparison of Reporting Year Activities with the SPIL

Item 1 - Progress in Achieving Objectives and Goals

Describe progress made in achieving the objectives and goals outlined in the most recently approved SPIL. Discuss goals achieved and/or in progress as well as barriers encountered.

Each of the four CILs in the state submit quarterly reports outlining their SPIL progress. In these reports they provide information on activities and progress toward meeting the SPIL objectives and goals. Montana was one of the last states to implement Money Follows the Person and the SILC and CILs have worked with other state agencies to establish guidelines and procedures for making the program operational. Staff for the program was hired in July and the first consumers began being served in September. Also guidelines for the creation of an Olmsted Commission were developed. The state adopted rules for Community First Choice Option with input from the CILs and SILC. The CILs assisted consumers in advocating for and procuring accessible housing or to bring existing housing up to code. They also are working with communities to improve or establish regulations and ordinances regarding accessible housing and ADA code compliance. In the area of transportation the CILs continued to work with local providers to increase accessibility. At a statewide level advocacy is being done to establish a rental car tax which would provide funding for improved transportation access for persons with disabilities. They are also working with the Public Service Commission to address taxi regulations regarding accessibility. The SILC and CILs are working with current sheltered workshops to move from that model to integrated employment. The CILs collaborate to provide WIPA services statewide. Each CIL has programs in place to assist youth in transition and to provide training to staff and others working with youth. In one case this resulted in an increase from 3 participants last year to 23 this year. Peers are being trained to work with consumers and CILs are providing Living Well and Working Well with a Disability training. Within the community education is being provided to increase people's knowledge of the history and culture of people with disabilities.

Item 2 - SPIL Information Updates

If applicable, describe any changes to the information contained in the SPIL that occurred during the reporting year, including the placement, legal status, membership or autonomy of the SILC; the SILC resource plan, the design of the statewide network of centers; and the DSU administration of the SILS program.

In July the SPIL was amended to remove Goal 4; Affect Public Policy Through Education, Training and Awareness, Objective 1: The SILC in Partnership with the CILs will develop a candidate survey based on the legislative priorities and issues identified at the 2013 IL Symposium. The surveys will be distributed in March 2014, upon closing of candidate filing. The results will be compiled into an informative report. The purpose of this report is to educate the candidates and increase the IL community's awareness of the candidates' position on issues outlined in the survey, regarding the needs of people with disabilities and the available services to meet those needs. This information would be shared in an IL voter guide for the 2014 General Election. This activity cost will be covered by in-kind resources from the CILs.

This objective was dropped as it was found to be in conflict with Montana code prohibiting such activities by agencies receiving state funds.

Section B - Significant Activities and Accomplishments

If applicable, describe any significant activities and accomplishments achieved by the DSU and SILC not included elsewhere in the report, e.g. brief summaries of innovative practices, improved service delivery to consumers, etc.

The DSU and SILC have been working to educate themselves and others on the Workforce Innovation and Opportunity Act (WIOA) which was signed into law in July. They have also been preparing for the 2015 state legislative session which will be addressing several IL related issues. Additionally they have been working with the CILs and other organizations to prepare events to celebrate the 25th Anniversary of the ADA.

Section C - Substantial Challenges

If applicable, describe any substantial problems encountered by the DSU and SILC, not included elsewhere in this report, and discuss resolutions/attempted resolutions, e.g., difficulty in outreach efforts; disagreements between the SILC and the DSU; complications recruiting SILC members; complications working with other state agencies or organizations within the state.

A primary challenge faced this year was to replace the SILC program manager. Several months passed with other DSU staff assuming the responsibilities of this position on top of their other duties. As a result several deadlines were missed and some activities did not receive the best support. The changes and challenges wrought by WIOA has resulted in some confusion. The SILC and DSU are adapting to the changes and awaiting further clarification and adaption of regulations within the Act.

Section D - Additional Information

Include any additional information, suggestions, comments or explanations not included elsewhere in the report.
